

Portable Access Pathway for ski resorts

HISTORY

Deschamps is a family-owned business since 1860

1860: Mr Alfred DESCHAMPS founded the company in the suburb of Angouleme city, in the South West of France and specialized in the manufacturing of woollen felts for paper industry. 1994: Mr Georges-Paul DESCHAMPS, the current President of DESCHAMPS, invented a three-dimensional polyester mat which was named Mobi-Mat® Mobility Matting. Patented in more than 50 countries, the unique construction of the Mobi-Mat Mobility Matting enables it to be used by numerous civilian and military organisations as efficient and rapidly deployed roll-out temporary roadways, helipads and shelter flooring. 2001: started DESCHAMPS MAT SYSTEMS INC in New York, USA. 2004: Mobi-Mat Beach-Access Mats were extensively used in Indonesia to help rescuing and bringing humanitarian support to Tsunami victims.

Leading manufacturer of Innovative Access & Mobility Solutions

The company Deschamps invents, manufactures and sells solutions to enhance the mobility named **Mobi-Solutions**. **Mobi-Mat** is produced using a patented process that incorporates state-of-the-art technology to produce a **Polyester Mesh Matting** that is extremely durable while providing the magic of access on many surfaces that are not accessible.

Mobi-Mat® RecPath: Portable Access Pathway for ski resorts

Mobi-Mat® RecPath is a portable and removable rollout access pathway for skiers, pedestrians, wheelchair users and vehicles including strollers, automobiles (maintenance and emergency).

Lightweight and easy installation: Mobi-Mat® RecPath range of products weighs from 0.7 to 1.8 kg/sqm. Only two people and ten minutes are required to install a 15m long roll, temporarily or permanently.

Mobi-Mat® RecPath is a **three-dimensional polyester mat** which can resist under very low temperatures **until -40°C** and thanks to its non-slip structure; Mobi-Mat® RecPath is **very efficient on snow and frozen grounds**.

Maintenance free: Mobi-Mat® RecPath requires little or no maintenance under normal conditions.

Mobi-Mat ® RecPath improves **the equality to access** for pedestrians, wheelchair users...to touristic sites, leisure, events in ski resorts (ski sporting events...)

CERTIFICATIONS

The Deschamps Group and Deschamps Mat Systems, Inc. have been awarded the distinctive ISO 9001 certification. This certification requires us to consistently provide a product that meets both customer and industry requirements. It also holds us accountable for the continual improvement of our mobility solutions. We are exceptionally proud of this honour and are committed to maintaining the uncompromising standards we've held since 2003.
