

**HIGH PERFORMANCE  
MAINTENANCE PRODUCTS,  
FUEL ADDITIVES AND  
SPECIAL LUBRICANTS**

SELD has 35 years' experience in the formulation and manufacturing of special lubricants, fuel additives and high performance maintenance products, which respect the most demanding European standards and strive to preserve the environment. Located near Lyon, in the centre of France, SELD is ISO9000 certified.

**OUR PRODUCT RANGES:**

- High Performance and Special Lubrication Greases
- Diesel and Gasoline Fuel Additives
- Aerosols for Maintenance, Protection and Lubrication
- Solvents, Detergents and Protection and Disinfection Products.
- Treatments for Industrial Engines, Automobile Engines and Racing Engines.

These years of experience have made it possible to develop products particularly adapted to the maintenance of mountain equipment.

Our high performance GFS5000 Grease Has, in particular, been accredited by the company POMAGALSKI for the lubrication of the most critical rope-lift equipment.

**NEW:** Our new HP BIO Grease, a 100% synthetic High Performance Biodegradable Lubricant, allows the lubrication of all the equipment used in fragile environments where any contamination risk is to be avoided.

**Designer/Manufacturer of Specific Maintenance Products**

We provide our customers/partners with the best-adapted professional solutions to the most extreme conditions for the maintenance of both mountain equipment and special equipment. We are continuously adapting our products to reduce their environmental impact and make them safer to use.

To further continue its development, SELD is now looking for partners and distributors in Europe, other countries and, notably, for the mountain equipment maintenance market.
